Facial Expressions

You will find complete instructions on the web site for submitting Digital Images for the competition.

<http://www.creativecameraclub.org/cropping/cropping.html>

The print category for competition is limited to Black and White entries only. We are no longer accepting slides for competition.

Facial Expressions:

A facial expression results from one or more motions or positions of the muscles of the face. These movements convey the emotional state of the individual to observers.

Facial expressions are a form of nonverbal communication.

They are a primary means of conveying social information among humans, but also occur in most other mammals and some other animal species.
